

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

P R E F A C E.

present entirely new Dictionary to the Public, the sole author has been to remove, as much as possible, all the hindering the reading of the ancient Italian writers, whose noble beauties displayed in their productions, demand place among men of superior genius. Whether those of literature were fostered by the benign temperature here, or by the copiousness of their language, excelled living in point of harmony or strength, it is unnecessary to say at present ; but this is certain, that these beauties are appreciated by few, on account of the many corrupted words, and other poetical licenses then adopted, inimitable, particularly as those Dictionaries, esteemed by long use and indifferent knowledge, have in no way obscured those words so necessary to the full understanding, and from which chiefly is transmitted the lustre of effusions. To clear away all these obstructions, and to science, the insertion of such words has been the study and endeavour of the Writer ; and if he has deserved, and the public approbation, he will think himself fully compensated by many laborious hours. and the several years devoted

both by masters and students, and save them much time and in their task. In the arrangement of verbs, the existing affixations will prove the practicability of their immediate adoption. To this absolute and radical change, let no spirit of objection be imputed; the wish alone of imparting knowledge, in an easy and simple manner, has suggested the alteration. For years the success of the plan, and the proficiency of pupils, have sustained the most sanguine hopes of the teacher. To say more on this subject, would be tedious.

The Introduction, which by the nature of this work cannot be extensive, comprehends and supersedes any Grammar; particularly as the articles, pronouns, &c., are classed differently from the ungrammatical custom adopted in elementary books, either French or Italian. In the formation of verbs there will be found greater improvement, as, except in the irregularity of some, we are confined to a few parts, the student will have only three tenses to learn, and by that means overcome in a short time every difficulty attendant on acquiring a language. Every noun is followed by its gender, and every verb by its conjugation, regular and irregular, centered according to its proper pronunciation, in both parts of the Dictionary; and when several follow successively, ending with the same termination, it is marked at the end of the last.

The First Part, namely the Italian and English, comprehends many additional and old words, taken from the poets, containing upwards of 56,832 words, and is solely formed from Alberti's Dictionary; and the Second Part, taken from Dr Johnson's, contains upwards of 38,940.

The Author cannot conclude this Preface, without expressing great pleasure he feels, in acknowledging the praise due to the printer, for the uniform assiduity, care, and very great abilities displayed throughout this Dictionary.

The Work is left to the judgment of the public, for whom it has been purposely written; should it fully answer his expectations in contributing to the general and national improvement, the pleasure of having been instrumental in promoting so great an object, will ever will be the proudest reward bestowed on

THE AUTHOR

INTRODUCTION;

OR

AN ABRIDGED GRAMMAR

OF

THE ITALIAN TONGUE,

COMPREHENDING, UPON A SIMPLE AND EASY PLAN, EVERY THING
NECESSARY TO THE STUDENT.

IT IS DIVIDED INTO THREE PARTS:

contains a table of sounds with their figured pronunciation; accents, and abbreviations, &c.
n, adjectives, pronouns, and nouns.
contains verbs regular, irregular, and monoperpersonal.
contains prepositions, conjunctions, and adverbs.

PART I.

TABLE OF SOUNDS.

VOWELS.—The Italian tongue has six vowels, which, either preceding or following any consonant are pronounced according to the following analysis of sounds:—

Long, {	<i>father,</i>	<i>fate,</i>	<i>keen,</i>	<i>yield,</i>	<i>home,</i>	<i>rule,</i>
	a,	e,	i,	j,	o,	u,
Short, {	<i>far,</i>	<i>pen,</i>	<i>pin,</i>		<i>for,</i>	<i>full,</i>
	ā,	ē,	ī,		ō,	ū.

CONSONANTS.—The consonants are the same as in English, except the letter *k*, which is supplied by *c*.

Letter *h* placed between *c-e*, *c-i*; *g-e*, *g-i*; hardens the sound of these soft syllables;

and	<i>che,</i>	<i>chi,</i>	<i>ghe,</i>	<i>ghi,</i>
pronounced	<i>kept,</i>	<i>kid,</i>	<i>get,</i>	<i>sig.</i>

SOUNDS OF SOME CONSONANTS.

fore *c*, and *i*, has the sound of *chess*, *chief*,

fore *c*, and *i*, sound like *achieve*,

fore *c*, and *i*, sounds like *gem*, *gin*,

fore *c*, and *i*, has the first *g*, sounded like *adjust*,

pronounced like *yie* in *yield*.

fore any of the vowels or diphthongs has the ringing sound of *ing*, as in *king*, *sing*.

*g*le or double, in the beginning or middle of words is sounded *ts* or *ds*. It is pronounced *ds*,

when preceded by *e* or *o*; also before words beginning with *s*.

the middle, or at the end of words, followed by any of these double vowels, *ia*, *ie*, *il*, *io*, now usually spelled with *z*, is sounded *ts*; except when *ti* forms a distinct syllable, as in the per-
s of verbs, and in some nouns, which practice will teach.

note that every syllable formed of either consonants or vowels, is, in Italian as in English, not distinctly; as, *inimico*, *in-mén-so*; *ingrato*, *in-grá-to*; *maestro*, *ma-és-tro*; *milo*, *mí-*

ACCENTS, APOSTROPHE AND ELISION. ABBREVIATIONS.

This part of the Introduction being of the greatest consequence to the easy and full understanding of the Italian writers, the student is earnestly recommended to pay the utmost attention to its short contents. A knowledge of them will remove the difficulties often found in the Italian poets.

ACCENTS.

The Italian language has two accents, grave and acute; the grave accent (`) is placed upon the final vowel of words ending in à, è, i, ò, u.

- 5th. On words of similar orthography, but of different meaning, as *da, gives; da, from; e, is; e, and*
di, day; di, of. &c.

OBSERVATION.—Final vowels grave accented suffer no elision, except in *chè* and its compounds, as *cn'era*, for *chè era*; *perch'era*, for *perchè era*.

Words grave accented, when joined to another beginning with a consonant, require the doubling of its first letter, and the suppression of the grave accent, as *Egli parlommi*, for *Egli mi parlò*, *he spoke to me*; *dammì*, for *dà mi*, *give me*; *piuttòsto*, for *più tosto*, *sooner*.

The acute accent (´) although often omitted in writing, yet requires due attention in the pronunciation of words, as by its long quantity it gives harmony to the language; in the persons of verbs where required, it should be duly observed, also on words of similar spelling, on which it should be invariably marked to prevent ambiguity, as *ténere, tender; ténère, to hold; ancóra, anchor; ancóra, arays, &c.*

APOSTROPHE AND ELISION

Apostrophe is a small stroke affixed at the top of a word to show that one or more final vowels have been cut off, as *l'anima*, for *la anima*; *l'amóre*, for *lo amóre*; *de'l'libri*, for *dei libri*; *a'l'libri*, for *al libri*. &c.

In poetry this elision is sometimes omitted for the sake of poetical measure, as *lo amoré*; *lo ingiústo*; *lo eccéssó*, &c.

I, of the article II, is also cut off when preceded by a word ending with a vowel, as tra'l pàdre e'l figlio, for tra il padre e il figlio, *between the father and son*.

MI, TI, CI, &c. lose their final vowel before a word beginning with a vowel and to which they are joined by the apostrophe; but, CI, *before* a, or u, is neither cut off nor united for the sake of harmony.

Words in the singular having any of the liquid letters before the final vowel suppress that vowel without an apostrophe, as *buon libro*, *good book*.

All infinitives followed by any of these pronouns, *mi, ti, ci, &c.*, lose their final *e*, in their absolute union together.

ELUCIDATION OF THE FINAL ABBREVIATIONS AND INCREASE OF WORDS EITHER
IN USE OR FOUND IN AUTHORS.

CONTRACTIONS OF NOUNS.

ai, a' final stands for ale, or ali, easily known by the sense or preceding article, as mai, or ma', for mali, or male. &c.

e, i, o, final, are often suppressed, as *cuor*, *miglior*, for *cuore*, *cuori*, *migliore*, *migliori*; *uman*, for *umano*, *umani*, &c.

ed. final. for *elli*. (plur. of *ello*) as *quel*. for *quelli*. (plur. of) *quello*, &c.

en. final. for ene. eni. as ben. for bene. bepl. &c.

ésimo, for ésimo, as medésimo-a, for medesimo-a, &c.

ora, is sometimes a plural increase, fem. of nouns ending in i, in the plur., as pratora, for prati, (plur. of prati), &c.

OBSERVATIONS.—Un is used before a noun masc. beginning with a consonant.

Uno, or un', before *s*, and another consonant, or a vowel.

Una, before a consonant.

Un', before a vowel, masculine or feminine.

The Italians have only two genders, both applicable to animate and inanimate objects, the culine and feminine.

The terminations of nouns and adjectives follow the five vowels, *a, e, i, o, u*.

Nouns in *o*, are generally masc. plural in *i*.

Nouns in *a*, are fem. plural in *e*.

Nouns in *e*, are masc. and fem. plural in *i*.

Nouns in *i*, are masc. and fem. plural in *i*.

Nouns in *u*, are fem. plural in *u*.

Nouns in *à*, grave accented, are fem. plural in *à*.

Nouns in *io*, sounded in one syllable, are masc. plural in *i*.

Nouns in *io*, sounded *i-o* in two syllables, are masc. plural in *i*.

j,--This letter is always pronounced like double *i*, either in the beginning, middle, or *e* words.

Dissyllables ending in *co* and *go*, except *poreo* and *greco*, make *chi* and *ghi*, in the plural.

Words of three syllables, except those ending in *coo*, and a few others, make *ci* and *gi*, (nounced) *tchi*, *dgi*.

Words ending in *ca* and *ga*, in the singular, mostly feminine, make *che* and *ghe* in the plur. OBSERVATION.

<i>sing.</i>	<i>plur.</i>	<i>sing.</i>	<i>plur.</i>
<i>co, m.</i>	makes <i>chi</i> ,	<i>go, m.</i>	makes <i>ghi</i> ,
<i>ca, f.</i>	makes <i>che</i> ,	<i>ga, f.</i>	makes <i>ghe</i> .

Every noun and adjective ending in *o*, is masculine, and makes *i* in the plural; as, *libro*, *book*; *dotto*, *doti*, *learned*.

Every noun and adjective ending in *a*, is feminine, and makes *e* in the plural; as, *tavola*, *table*; *dotta*, *dotte*, *learned*.

Every noun and adjective ending in *e*, masculine or feminine, makes *i* in the plural; as, *i padri*, *father*, *fathers*; *prudente*, *prudenti*, *prudent*.

COMPOUND ARTICLES

Follow the same rule as their primitives in gender and number.

Nouns preceded by the article definite, or a possessive pronoun, with one of the prepositions *con*, *sur*, *per*, before them, change *il*, *lo*, *la*, *i*, *gli*, *le*, into the following compound articles.

<i>masc. s.</i>	<i>fem. s.</i>	<i>masc. pl.</i>	<i>fem. pl.</i>
In the, <i>nel</i> , <i>nello</i> ,	<i>nella</i> ,	<i>nei</i> , <i>ne'</i> , <i>negli</i> ,	<i>nelle</i> .
With the, <i>col</i> , <i>collo</i> ,	<i>colla</i> ,	<i>col</i> , <i>co'</i> , <i>cogli</i> ,	<i>colle</i> .
Upon the, <i>sul</i> , <i>sullo</i> ,	<i>sulla</i> ,	<i>sui</i> , <i>su'</i> , <i>sugli</i> ,	<i>sulle</i> .
For the, <i>pel</i> , <i>pello</i> ,	<i>pella</i> ,	<i>pei</i> , <i>pe'</i> , <i>pergli</i> ,	<i>pelle</i> .
In my, <i>nel</i> <i>mio</i> ,	<i>nella mia</i> ,	<i>nei</i> , or <i>ne' miei</i> ,	<i>nelle mie</i> .
With my, <i>col</i> <i>mio</i> ,	<i>colla mia</i> ,	<i>col</i> , or <i>co' miei</i> ,	<i>colle mie</i> .
Upon my, <i>sul</i> <i>mio</i> ,	<i>sulla mia</i> ,	<i>sui</i> , or <i>su' miei</i> ,	<i>sulle mie</i> .
For my, <i>pel</i> <i>mio</i> ,	<i>pella mia</i> ,	<i>pei</i> , or <i>pe' miei</i> ,	<i>pelle mie</i> .

These two Italian prepositions. *In* and *Con*, *in* and *with*; also the adverb *Non*, *not*, require for a word beginning with *s* and another consonant, as:

Egli è in istudio, non posso disturbarlo, *he is in study, I cannot disturb him.*

Voi vi comportate con istravaganza, *you conduct yourself (or yourselves) with extravagance.*

Ella prodiga il suo danaro con spese inutili, *she lavishes her money in foolish expenses.*

Eileno questo non istaranno molto tempo, *they will not stand this long.*

Italian nouns and adjectives by a peculiar manner may have their primitive significant ceased or decreased with the following terminations joined to the radical letter of the noun striking off the final vowel.

These terminations, applicable to masculine and feminine nouns and adjectives, adopt the order and number of their termination.

FOR THE INCREASING QUALITY.

	small, smaller.

ATION.—Megliore and peggiore, as adjectives, are used with nouns.

Meglio and peggio, as adverbs, with verbs, participles, &c. as;

Fortissimi un miglior libro, *bring me a better book.*

Vol avete una peggiore sedia, *you have a worse seat.*

Refino Acero meglio, *they have done better.*

comportata peggio, *she has conducted herself worse.*

SUPERLATIVE COMPARISON

Is formed by taking away the final vowel of the adjective, and adding -issimo, m. -issimi, mp. -issime, *fp. as, bello, fair, bellissimo, &c., fairest.*

But should the definite or a possessive article stand before most, as, the most, my m be expressed by the article, il, la, &c., preceding più, meno, or mio, &c. as;

Egli è il più destro di tutti, *he is the most clever of all.*

Ella è la più bella di tutte, *she is the most beautiful of all.*

Egli è il meno ricco di tutti, *he is the least rich of all.*

Ella è la meno amabile di tutte, *she is the least amiable of all.*

Egli è il mio più intimo amico, *he is my most intimate friend.*

Elleno sono le mie più grandi ricchezze, *they are my greatest riches.*

Superlative comparison, in Italian, is also very elegantly formed by the repetition of (adjective, as;

Fa bel bel tempo, *it is very fine weather.*

Maria è la bella delle belle, or *Maria is very handsome.*

Maria è bella bella,

Vi sono tedioso tedioso, *I am very tiresome to you.*

Il tempo è freddo freddo, *the weather is very cold.*

These four excepted, superlatives may also be expressed according to rule.

RELATIVE PRONOUNS, SIMPLE AND COMPOUND.

SIMPLE PRONOUNS.

Che, chi, quale, *who, which, that*. Che, either as a relative pronoun, or interrogative: remains indeclinable. It is of both genders and numbers, and applicable to all objects.

Preceding a noun it is an interrogative article, modified with any preposition, but *più* di, a, da, as;

Che uomo viene a parlarvi? *what man comes to speak to you?*

Che strada bisogna egli pigliare? *what street must one take?*

Di che donna parlate voi? *of what lady do you speak?*

A che giuoco giuocate voi? *at what game do you play?*

Che città amate voi meglio? *what town do you like best?*

Da che paese venite voi? *from what country do you come?*

Che libri sono ottimi? *what books are the best?*

Da che genti avete voi udito questo? *from what persons have you heard*

above associations, except that quale is declined like nouns ending in a, or

but che is more elegant, and more used by good writers and speakers. as:

Qual uomo viene a parlarvi? *what man comes to speak to you?*

Di quale donna parlate voi? *of what lady do you speak?*

Quali libri sono ottimi? *what books are the best?*

Da quali genti parlate voi? *of what persons do you speak?*

be, as a relative pronoun, comes after the noun it represents, always preceding the verb of which it is the nominative case, as;

Il maestro, che insegna, *the master, who teaches.*

Le strade, che sono larghe, *the streets, which are wide.*

hi, who, whoever, some one, any one, is an interrogative pronoun relating only to rational creatures not mentioned. It is of both genders and numbers, and is modified by, di, a, da, as;

Chi di voi ha detto questo? *which of you has said this?*

Di chi avete voi parlato? *of whom have you spoken?*

A chi l'avete voi dato? *to whom have you given it?*

Da chi è stato battuto? *by whom was he beaten?*

ii, employed for all cases except the nominative, is more properly the genitive case of a relative pronoun referring to all objects but generally to rational—by its peculiar position an Italian sentence becomes extremely elegant—to effect which, it should always be placed between the definite article and the noun, as;

i bel viso voi ammirate or,

cui bel viso &c., for,

il viso di cui &c.,

il padre io fui introdotto, or,

i cui padre &c., for,

adre di cui, &c.,

cui signore ho ricevuto una lettera, or,

il cui signore, &c., for,

signore di cui, &c.,

ai bellezze volete vedere, or,

i cui bellezze, &c., for,

il lezze di cui,

amici v'ho parlato, or,

ai amici, &c., for,

amici di cui,

the compound relative pronoun, il quale, *that which*, agrees in gender and number with its antecedent. It is employed like the relative, che, for all objects, but is not so elegant; as;

Il libro, il quale io leggo, *the book, which I read.*

La moglie, la quale amo, *the wife, whom I love.*

Gli uomini, i quali ho pagati, *the men, whom I have paid.*

Le case, le quali ho comprate, *the houses, which I have bought.*

?? *what?* as a pronoun interrogative, always precedes the verb, as;

Che è fatto? *what is done?*

Di che si parla egli? *of what do they speak?*

A che impiegano egli il loro tempo? *at what do they employ their time?*

Che faremo dopo pranzo? *what shall we do after dinner?*

i, che, before a verb followed by an adjective is rendered by *how* in English, as

Che voi siete buono! *how good you are!*

Che egli sono noio! *how tiresome they are!*

DEMONSTRATIVE PRONOUNS AND ARTICLES.

Questo, questa, questi, queste, *this, these*, for near objects;

Quello, quella, quelli, quelle, *that, those*, for distant objects;

demonstrative articles agreeing in gender and number with their following noun—they are preceded by the definite article, il, lo, &c.; as;

Quest' uomo mi storce, *this man turns me.*

Questa donna è molto affabile, *this lady is very affable.*

Il merito di questo libro non è conosciuto, *the merit of this book is not known.*

Il piacere di questa vita è molto breve, *the pleasure of this life is very short.*

A queste cose voi dite niente, *you say nothing to these things.*

il, lo &c. follows the same rule; except that *quel* is used before a masculine noun beginning with a single consonant, and *quello* before *s* and another consonant, or before a vowel, with final *ss*, supplied by apostrophe placed between:—in every respect it follows the rule of *lo*, the demonstrative both, in gender and number, as;

Spedite quell' uomo con quel libro, *send that man with that book.*

Non è quella città larghissima? *is not that town very large?*

Quei cavalli sono molto faticati, *these horses are much fatigued.*

Quei uomini furono molto impazienti, *those men were very impatient.*

Quelle donne sono le più belle, *those ladies are the most beautiful.*

Parlo di quegli onori che ha ricevuti, *I speak of those honours he has received.*

Questo, and quello; *this, that*, used without a noun after them, are pronouns substantive only to inanimate objects, and declined with, di, a, da, as;

Datemi questo, *give me this.*

Portate quello alla casa mia, *carry that to my house.*

Questi, quelli, quel, quegli, *this one, or this man, that one, or that man*, are substantive pr of the singular number, rarely used for the plural. They are applicable only to rational

Questo è per costui, non datelo a costui, *this is for that man, do not give it to this man.*

Invitate costei, omettete colei, *invite this woman, leave out that, &c.*

Portatelo a costoro, *carry it to these men, women.*

L'ho ricevuto da coloro, *I have received it from those men, those women.*

These two adverbs qui, or quà; *here*, and lì, or là, *there*, joined to questo or quello, exp same meaning as costui, &c.; and are more elegant, particularly in the plural, as;

Questo è per questo qui, *this is for this man.*

Non datelo a quello là, *do not give it to that man.*

Parlate voi di questa qui? *do you speak of that woman?*

No! parlo di quella là, *no! I speak of that woman.*

Portate le lettere mie a questi qui, *carry my letters to these men.*

Avete voi il danaro di quelli là? *have you the money of those men.*

Domandatelo a queste qui, *ask it of these women.*

Rimettetelo a queste là, *remit it to those women.*

Cotesto, or codesto, cotesta, or codesta, cotesti, or codesti, coteste, or codeste; *that, tho* adjective used to represent an object near the person addressed, and answers to quel or que

Datemi cotesto, or, quel vino, *give me that wine.*

Figurate cotesto vino, *take this wine.*

To these demonstrative pronouns may be added,

Cib, *this, that.*

This pronoun always refers to an inanimate object, and is modified with the preposit a, da, &c.

INDEFINITE PRONOUNS,

More properly pronominal adjectives, are applicable to all objects. Some of them a with a noun, others without one, it being understood; some are declinable, and other clinable.

Of those which are declinable, the following, compounded of uno, adopt the general gender and number.

VERBS.

FORMATION OF THE TENSES.

THERE being few students unacquainted with the names of moods and tenses, it is needful to describe their nature or order. Yet it should be recollected that the present, perfect, and future of the indicative are of a positive nature, the conditional with the tenses of other moods of a contingent futurity.

The present is formed from the infinitive by taking off, *áre, are, íre*, (vide Synopsis.)
 The imperative from the 3 pers. sing., and from the 1st and 3d persons plur. of the indic. (the first conjugation excepted, which changes the 3d person sing. into *a*), and from the 3d pers. sing. and plur. of the subjunctive.

The future and conditional from the infinitive, the first by changing *e* final into *é*; the second adding *i* to *e* final, (vide Synopsis.)

CONJUGATION

Of the irregular, active, and auxiliary verb, *avére*, *to have*.

INFINITIVE MOOD, AFFIRMATIVELY.

VERBS.

FORMATION OF THE TENSES.

the present disposition of the moods and tenses, entirely original, not for the sake of innovation of greater simplicity, the author trusts, that he has rendered their attainment more easy, by it being of no consequence in what manner they are arranged (being already out of natural order), provided their powers be well understood, and their application readily bringing into an immediate view moods and tenses so widely removed from each other, exhibiting and imprinting at once their various terminations will be a strong inducement for long its adoption.

DUOPERSONAL VERB

c'è, ci-sono, &c.

From the above verb *essere* and these two adverbs, *ci*, *here*, and *vi*, *there*, is formed the duopersonal verb simple and compound, *here is*, *here are*; *there is*, *there are*, &c., by taking the third person singular and plural of every tense according to the number of its nominative, observing the compound tenses, the agreement of the past participle with its preceding noun, pronoun, or person. as;

C'è un' uomo nella camera, *here is a man in the room.*
V'è una donna nella strada, *there is a lady in the street.*
Ci sono molti fiori nel giardino, *here are many flowers in the garden.*
Vi sono le moglie loro, *there are their wives.*
C'è stato un' uomo nella casa, *here has been a man in the house.*
V'è stata una signora che vi domandò, *there has been a girl who asked for you.*
Ci sono stati molti uomini, *here have been many men.*
Vi sono state molte donne, *there have been many ladies.*
Vi sono molti cavalli? *were there many horses?*
V'era la vostra sorella? *was your sister there?*

Should *here* or *there*, *ci*, or *vi*, come before any other past participle than that of the passive auxiliary, the active auxiliary must be used. as;

Ci ho passato molti felici giorni, *I have passed here many happy days.*
Vi ho passato molte infelici ore, *I have passed there many unhappy hours.*

The ready use of this duopersonal verb depending solely upon a full knowledge of the verb *essere*, that verb of course must be fully acquired.

CONJUGATION OF REGULAR VERBS.

The past participles of verbs are declined like adjectives, and agree in gender and number with their noun or pronoun; but there are positions, where they remain undeclined. Preceded by *th* noun, &c., they agree together; coming after, they are indeclinable, as ;

Gli uomini che ho veduti, *the men I have seen.*
 Le donne che ho vedute, *the ladies I have seen.*
 Vedete la lettera che ho ricevuta, *you see the letter I have received.*
 Ho veduto gli uomini, *I have seen the men.*
 Ho veduto le donne, *I have seen the ladies.*
 Ho ricevuto la lettera che vedete, *I have received the letter you see.*

The relative pronoun suppressed in English cannot be omitted in Italian.
 The past participle preceded by any person of the verb, *avere*, remains undeclined before the infinitive of a verb. as ;

I generali avevano creduto, } *the generals had thought*
 di perdere la battaglia, } *to lose the battle.*
 Mia sorella ha creduto, } *my sister has thought that*
 stare per morire, } *she was dying.*
 La città ha fatto costruire un } *the city has had a bridge*
 ponte, sopra la riviera, } *built over the river.*

MODE OF USING THE SYNOPSIS.

The order of this synopsis, by its simplicity and natural formation, claims the particular attention of the student, who, at one glance, will observe the immediate similitude and affinity existing between the three most important moods, the indicative, imperative, and subjunctive; also of the other tenses classed in a similar manner. Instead of travelling through the immense labyrinth of tenses as heretofore, he has at his command the whole verb, with its four inflections, by taking of the final syllable, *ere, ere, ire*, from any verb, and in its place affixing the terminations according to the conjugation. By this easy mode every difficulty is removed, and his progress much forwarded. In irregular verbs there are slight deviations in the formation of some particular tenses but it should be remembered that the four following tenses are general to all:—these are

IMPERFECT,	VO, or VA,	VI,	VA,	VIMO,	VÁTE,	VÁNO.
FUTURE,	RO,	RAI,	RA,	REMO,	RÉTE,	RÁNNO.
CONDITIONAL,	REI,	RÉSI,	REBBE,	REMMO,	RESTE,	REBBERO.
PRÆP. SUBJ.	SSI,	SSI,	SSI,	SSIMO,	ETC,	SSERO.

The above terminations are joined to the vowel preceding *re* of the infinitive, the first conjugation excepted, which changes *a* into *e* in the future and conditional tenses.

It was thought more consonant with true grammar to use *vo*, instead of *va*, in the first person of the imperfect, although *va* be generally used in common speech, yet it is more allowable & poets for the sake of rhyme, than to good speakers.

The irregularities of verbs in *ere* are noticed in their alphabetical order and proper place.

Past participles of the first conjugation are sometimes contracted by cutting off *ar* of the final syllable, as *caricato* for *caricato*, *fermo* for *fermato*, &c.; in every respect all participles are used like adjectives, and for them.

The first conjugation ends in *ere*.

PASSIVE VERBS.

Being formed with *essere* in all its moods and tenses and the past-participles of verbs, the following examples will be sufficient to show how they are conjugated.

REFLECTIVE VERBS.

Every active verb of any conjugation, either regular or irregular, necessarily producing action upon an object, requires after it the accusative or dative case of a noun; but when the action is reflected upon its own agent, the pronoun thus acted upon must be placed either before or after the verb according to the following conjugation.

Monopersonal Verbs, or Verbs of One Person.

The most essential and idiomatical verbs, *c'è, v'è, &c.*, having been conjugated at full length and in their primitive, where their constant and early use rendered them both necessary and more easy of reference, the following will include the others arranged according to their conjugation.

Monopersonal verbs are either absolute or personal.

Absolute monopersonal verbs denote an action which cannot be prevented. They are expressed by the third person singular of every tense and mood according to the inflection.

Personal monopersonal verbs refer to the actions and manners of men; they are either preceded or followed by the conjunctive pronouns, *mi, ti, si, &c.*, according to the inflection.

Observe that, in the formation of the various persons, the final vowel or syllable marked in *italics* is to be taken off, and replaced by the termination required.
